AUSTIN—The hundreds of candidates who are running for places in the Texas House of Representatives and the Texas Senate have plenty of problems. But when the victors get to Austin they'll have a new one. Big question will be "where to park their cars?"

Lack of parking facilities on the Capitol causes a maddening game of musical chairs—musical cars—at each legislative session. Speaker of the House James A. Turman says the problem is "growing more acute each day."

So, Turman appointed a

committee which may have the longest title in the history of the statehouse: The Interim Committee to Study State Owned Lands Around the Capitol Concerning the Possibility of Converting Such Into Parking Lots.

Rep. Obie Jones of Austin was named chairman. Two other Austin members, Reps. Wilson Foreman and Charles Sandahl, will serve on the interim study committee.

CUT THE PROPERTY TAX?—For three years now a legislator-citizen study committee—the Texas Commission on State and Local Tax Policy—has been mulling the possibility of state abandonment of the property tax. Texas Research League has helped with the study.

The committee should have recommendations ready for legislative action in the January session. Outcome may rest on voter pressure between now and the November general election.

Under the current system, schools get 42 per cent of the property tax dollars; cities take 29 per cent; counties, 18 per cent; and the state government and special districts only get five per cent each.

Texas Municipal League has urged the state to abandon the ad valorem tax and let the cities increase their property taxes.

Hale-Aikin committee asked the state to abandon the tax and let the schools levy it.

Tax experts often have declared that county assessors might place higher values on property, if they felt more of the ad valorem tax dollar would stay in the county.

COLLEGE FUNDS SHORT—Presidents and business managers of Texas' 19 state-supported colleges and universities were stunned this week when Texas Commission on Higher Education reported they will get only 54 per cent of the funds they requested to meet increased enrollment in 1963.

Administrators had set their future needs at \$2,770,951. But the Legislature only appropriated \$1,500,000 to supplement teaching salaries for enrollment increases. So the commission's staff prorated the fund among the 19 schools.

Dr. F. L. McDonald, president of Lamar State College of Technology in Beaumont didn't take the news quietly. "This is one of the reasons why we are never able to raise salaries," he protested. He said the colleges are never allotted enough money, and "have to dig it up."

While the 19 presidents are trying to balance their budgets, Commission on Higher Education will be studying re-

LOCAL BUSINESS . . .

S. S. Talbert, Ph. D.
Chairman, Dept. of Journalism
University of Mississippi

Community newspapers are usually leading advocates of various "shop at home" drives.

As a local business, the newspaper certainly has a stake in any stimulation of local trade and the building of a better trading center.

However, as businessmen and as a realistic observers, most publishers know very well that general publicity given to "shop at home" drives can not succeed unless the advertising of individual retailers of consumer goods some specific

benefit for keeping their business at home.

For stimulating trade activity in a community an organized effort can never substitute for the advertising effort of the individual merchant who offers at a good price a dress, an automobile, a power tool, or a ham.

People everywhere shop with an eye to personal benefit. They are not impressed by appeals to community loyalty when local merchants fail to make it known that they are competitive with distant shops.

No one just shops for the sake of shopping. They go to a certain store to buy certain items. They go to Chicago to buy a coat at Marshall Fields, or to Atlanta to buy a suit at Rich's, or to New York to buy a dress at Macy's.

Great retail centers became great because the persistent advertising of particular stores made them attractive centers of trade.

And always is smaller cities where retail activity attains unusual vigor, the real cause is local merchants who know that persistent, specific promotion by the individual store is the most powerful "trade at home" appeal.

Service Division of the Texas State Library. It operates bookmobile services throughout the state; furnishes books for libraries in cities and communities of less than 10,000 population; and provides consultants without charge.

But many of the achievements can be claimed by communities—like Taylor, Rockdale, Navasota and Alvin—where citizens get out and raise money for library building funds.

HIGHEST HIGHWAY LETTING SET—State Highway Engineer D. C. Greer said the highway department's April bid letting will be the biggest this year. Low bids are expected to total some \$28,600,000.

The April 24-25 letting will involve 952 miles of Texas highways and cover contracts for 422 miles of U. S. and State highways; 148 miles of farm-to-market roads and 382 miles of seal-coat work.

"We are leading the nation in miles of interstate, primary and secondary highways," Greer stated, "and we want to keep that lead."

READING PUBLIC GROWS—Dr. Dorman H. Winfrey, State librarian, announced an increase of 13 public libraries in Texas and more than a quarter of a million books on library shelves throughout the state.

He said library service has improved to the point where there are now 106 branch libraries, in comparison to 97 in 1960. More than \$4,400,000 was spent for library construction last year, "possibly the biggest library-building year in more than three decades."

Dr. Winfrey gave much of the credit for library development to the Rural Library

NEINDA PHILOSOPHER SAYS GOVERNMENT ECONOMY SOME PLACE ELSE IS WHAT MOST PEOPLE WANT

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route 1, discusses economy, the United Nations, and a few other things this week.

Dear editor: One of the advantages of having a farm problem is the satisfaction you get out of realizing you aren't by yourself, practically every other form of enterprise has its problem too.

Take the United Nations. According to an article I read in a newspaper last night between westerners, the United Nations is financially embarrassed; well, it's broke. Hasn't got enough money to finance its activities and is doing the only thing any man or nation in its right mind would do, namely, ask Washington for a loan.

Actually, this shouldn't be embarrassing. It happens all the time. I know a lot of people with fine, beautiful ideas who can't pay their bills.

Now this shouldn't be interpreted as an attack on the United Nations, that outfit has enough troubles worrying about countries all over the globe without being bothered by this Johnson grass farm, and I might point out I know some people also who can pay their bills whose ideas ain't so fine and beautiful, not according to my notion.

One of the complaints over the financial plight of the United Nations is that some na-

and the ribbons they received are as follows:

Blue ribbons in Foods—Patty Bradshaw (1), Judy White (3), Judy Sander (1), Dona Bradshaw (1), Billie Vahlenkamp (2); Red ribbons in Foods—Donna Pierce (2) White Ribbons in Foods—Judy White (1).

Blue ribbons in Clothing—Landra Baitz (2), Sharon Leverett (1), Sophia Vargas (1). Red ribbons in clothing—Nancy Vahlenkamp (1), Billie Ann Vahlenkamp (1); Blue ribbons in Handicraft—Judy Sander, (1).

Prize money was given to the girl with the most entries and with the most blue ribbons in each of the divisions—Sr. and Jr. Judy White was winner in the elementary division; having both the largest number of things entered and the largest number of blue ribbons so she brought home five dollars in prize money.

The Seniors received their graduation cards this week. The school has had several sick with the flu bug.

The Homemaking III girls prepared a cook out for the senior and junior boys. The meal consisted of hamburgers, cake, homemade ice cream, and lemonade. The Men teachers were invited.

A man from the Department of Public Safety showed a film on "Death on the Road." It really made you stop and think. He then demonstrated the stopping ability of some of the students and teachers.

The 4-H baskets are in and are being delivered.

I don't drink rum, and I'm not a Catholic. But I do get rebellious at times. Like when my two opponents tried to pass a law denying me and other people the right to vote.

I guess we should be glad that they are so bungling. They either can't find the bill or they act so silly that their fellow lawmakers make them look foolish.

LOOKING HER BEST FOR

Easter

Easter is a day of conquest... a day of new life... a day of beginnings... This is the day that our Saviour arose in a mighty triumph over the grave. This is a day of joy... a day to remember... a day to attend services in the church that our Lord loved so much, but even though we all want to dress up and look our best for this special day it is not the most important part, for God does not look on outward appearances, but looks on the heart.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Another beautiful spring week has rolled around without any sandstorms, this has been an unusually nice spring as far as they are concerned. But we aren't fooled, this is West Texas, as soon as the

men start planting cotton the wind will try to blow the seed out of the ground. But until that time comes we are enjoying every calm day that comes along.

Some farmers out our way have planted cotton and some have maize coming up.

Mr. and Mrs. Winslow Gray went to Anson to attend the revival last Monday night with Mr. and Mrs. John Beauchamp. Debra, little daughter of the Beauchamps was one of those baptized Sunday night, at the conclusion of the revival.

Mrs. Jim Norman, Rule, a sister of Mrs. E. A. Henry, visited her Tuesday afternoon.

Friday, Mr. and Mrs. Henry went to Aspermont and visited with several relatives living in that vicinity.

SIX TRIPS TO THE MOON ON A MAGIC STRAND!

If the lines of all the electric cooperatives in the nation were put end to end, they would stretch to the moon six times, or a distance of nearly 1 1/2 million miles. These lines were strung through swamps, over hills, across plains, and through forests to serve rural people who built their own electric systems because they couldn't get electricity any other way. The nation's rural electric systems are dependable and efficient. Their service is modern and up-to-date. They are a shining example of what free enterprise can accomplish, building a brighter tomorrow.

You've got everything going for you!

Here now!

This year there's a car that changes your mind about the cost of beauty—and advanced engineering, too. It's the magnificent, masterful Mercury Monterey for 1962, the only new car that's got everything going for you. It's beauty that beckons, then take a long, loving look. The Monterey is sheer elegance in steel, a timeless sculpture that turns your garage into an art gallery. If it's advanced engineering that you dote on, peer in and look for yourself: Self-adjusting brakes, 30,000 miles between major lubrications, 6,000 miles between major oil changes. Dozens of industry-leading innovations like that. And, when it comes to investment, that's really where the new Mercury Monterey has everything going for you. It is priced just a whit more than ordinary-looking, ordinary-riding, ordinary-featured cars. This is the year you don't have to compromise between beauty and a bargain, between elegance and economy. Mercury Monterey. The one car that's got everything going for you.
